

At **Explorentis** we're aiming at creating better lighting products for a better life. We create technology that benefits humans, animals and nature. To achieve our goals we pursue the highest level of knowledge and continuously follow new technological developments.

Job description:

In the role of technical product manager you will be responsible for the management of one or more of our in-house developed products, from concept to production.

- In this autonomous role you'll be collaborating closely with our engineering-, production- and sales department
- You'll be responsible for the making of orders of the products technical components and the following up on these orders until the production phase
- Following the technical concepts of the engineering team, you're able to deduct total product costs and manage budgets
- You're able to develop test procedures and can execute these autonomously
- You carefully manage documentation per product (BOM, PCB schematics, test and certification reports)
- After a training period you can assist the development department in making the right commercial, logistical and qualitative decisions regarding new and existing products and technologies.

Profile:

- You have followed a technical education in electronics or equivalent through experience
- You have a good knowledge of analogue and digital electronics and love a hands-on approach
- You have experience with analysis and measuring devices
- You have experience with manual and automated production procedures
- You are attracted to both the technical and the administrative aspect of the job
- You think in a creative and cost effective way
- You have the communication skills to function both independently and in a team
- You have a driving license B, and you live at max. 50km from Boutersem
- Pros: experience with Altium Designer, 3D CAD software (e.g. Autodesk Inventor) and LabView

Offer:

- Full-time position with attractive salary package in line with the responsibilities
- Employment in our building located in Boutersem
- An open and collegial working atmosphere in a rapidly growing organization with leading products
- In-house training opportunities
- Explorentis is a young and dynamic company in which there is room to flexibly shape your role.
