

At **Explorentis** we're aiming at creating better lighting products for a better life. We create technology that benefits humans, animals and nature. To achieve our goals we pursue the highest level of knowledge and continuously follow new technological developments. The **EPIX** department designs and delivers customized creative LED projects for national and international customers: events, entertainment, ...

Job description:

- As project manager for EPIX, you are primarily responsible for designing innovative pixel and LED lighting for audiovisual productions while taking the final outcome to heart
- Becoming part of the production team of EPIX, project-oriented daughter company of Explorentis
- Handling quotation requests
- Translating customer expectations into creative production designs.
- Develop and document the projects technical side, in consultation with the production team and the planning department
- Being able to translate the right scope and priorities into a feasible planning
- Can work together with internal and external teams
- Assist on the terrain while taking charge of the crew during larger productions

Profile:

- You have at least 5 years of demonstrable experience in the design and technical management of audiovisual productions
- You are attracted to both the technical and the administrative aspect of the job
- You have technical expertise in the fields of light and electricity
- You have the communication skills to function both independently and in a team
- You are prepared to work at irregular times, even on evenings and weekends
- You have a stress-resistant and positive attitude
- You have a driving license B, and you live at max. 50km from Boutersem
- Pros: lighting desk control, 3D CAD software, MADRIX and VJ software

Offer:

- Full-time position with attractive salary package in line with the responsibilities
- Employment in our building located in Boutersem
- An open and collegial working atmosphere in a rapidly growing organization with the opportunity to work on innovative and leading projects at home or abroad.
- In-house training opportunities
- Explorentis/EPIX is a young and dynamic company in which there is room to flexibly shape your role. Use the email address below if you would like more information about EPIX and our projects / customers.
